LOOKING FOR

An internship to discover how AI is used in a company

I build tools using AI for my own projects. I would now like to discover how AI is used in a company: what teams need, the tools they choose and how they use them day to day.

AVAILABLE

October 19 – 30, 2026

French fall break, from 1 day up to 2 weeks depending on availability

SEPT. 2027

Looking for an apprenticeship (development and AI)

100+
projects with Vortex Studio (maps)

6
competitive games for a tournament site

600+
members in the online community I created
